SUMMARY

Finance professional pairing portfolio finance and capital planning with hands-on valuation and quantitative modeling. Build DCF, comparables, and scenario/sensitivity models in Excel and Python, run variance and regression-based analysis, and translate multi-source data into committee-ready materials that drive capital-allocation decisions. Currently steward forecasting and governance for a \$71M, 60+ project portfolio, preparing monthly steering-committee materials for executive funding decisions. Seeking to apply this analytical rigor to investment due diligence, sourcing, and execution across fintech and emerging-technology sectors.

PROFESSIONAL EXPERIENCE

NextEra Energy (NEER)

Dec 2025 - Present

Financial Analyst, Portfolio Finance & Capital Planning

Juno Beach, FL

- Own forecasting, budgeting, and variance analysis for a \$71M, 60+ project portfolio, preparing monthly steering-committee materials that directly inform executive capital-allocation and funding decisions.
- Surfaced \$1.2M in misallocated charges through a portfolio audit reconciling WBS charge codes against live actuals, tightening data integrity ahead of senior-leadership review.
- Built driver-based budget and forecasting models in Excel with automated SAP actuals integration, cutting manual data entry 40% and compressing the month-close cycle.
- Stood up portfolio-health dashboards (RAG status, YTD pace-to-plan variance) that synthesize multi-source data into real-time decision views for senior leadership.

Populus Financial Group

Feb 2025 - Aug 2025

Financial Analyst (FP&A)

Irving, TX

- Built forecasting and scenario/sensitivity models in Excel and Python across ~\$1.35M in monthly revenue for a consumer-fintech lender's money-transfer, money-order, and bill-pay lines.
- Diagnosed revenue-leakage drivers through variance and trend analysis of transaction cycles, converting findings into pricing and operational actions for executive leadership.
- Developed an NPV / cost-benefit model evaluating data-center consolidation alternatives, quantifying ~\$500K in annualized savings to support the capital decision.

Ernst & Young

Aug 2024 - Jan 2025

Technology Consultant (Client: Hunt Oil Company)

Dallas, TX

- Modeled seven years of oil-and-gas price differentials in Power BI for a major energy client, supporting sector planning, forecasting, and performance analysis.
- Engineered a real-time SAP HANA-to-SQL Server data pipeline (stored procedures, data virtualization) that accelerated refresh speed and enabled timely reporting.
- Led migration of the AFENAV application to Salesforce APEX, improving data integrity and eliminating external vendor dependency.

InfoServe BI LLC

Jun 2023 - Aug 2024

Business Intelligence Reporting Analyst (Client: Holman Enterprises)

Dallas, TX

- Administered an SAP BusinessObjects environment for 790+ users and 70+ data universes, sustaining high availability and rapid issue resolution.
- Automated recurring reporting (SAP BusinessObjects 4.2 to Oracle, scheduled refresh), cutting manual effort and improving turnaround.
- Wrote advanced SQL and ETL workflows that consolidated disparate sources into consistent, decision-ready reporting.

TECHNICAL SKILLS

- **Financial Analysis & Modeling:** Budgeting, forecasting, valuation methods (DCF, comparables, LBO), scenario analysis, sensitivity/stress-testing, variance analysis
- **Programming & Data:** Python, SQL (T-SQL, PL/SQL), Java, VBA
- **Business Intelligence:** Power BI, Tableau, SAP Business Objects, Salesforce (APEX), InfoBurst
- **Database & ERP Systems:** Oracle, SAP HANA, SAP S/4 HANA, SQL Server, ETL workflows, Data Warehousing
- **Tools:** Advanced Excel, SAP Fieldglass, MS Office Suite, Project Coordination, Stakeholder Communication

KEY ACHIEVEMENTS

- **Capital Allocation:** Built the budgeting, forecasting, and dashboard framework governing a \$71M, 60+ project portfolio, directly supporting executive funding decisions.
- **Valuation Impact:** Quantified ~\$500K in annualized savings via an NPV / cost-benefit model that drove an infrastructure consolidation decision.
- **Revenue Analytics:** Pinpointed leakage and growth drivers across \$1.35M+ in monthly fintech volume through variance and trend modeling.

EDUCATION

Thomas Edison State University

2024 - 2025

Bachelor of Arts, Liberal Studies

The University of Texas at Dallas

2020 - 2024

Bachelor of Science, Information Technology and Systems
