SUMMARY

Analytical, metrics-driven finance professional with experience across portfolio finance, capital planning, FP&A, and consulting. Skilled in financial modeling, valuation (DCF, comparables), forecasting, and quantitative analysis. Strong record managing budgeting, variance analysis, and capital-allocation governance across a \$71M, 60+ project portfolio, preparing committee-level materials, and delivering scenario and sensitivity analysis that supports senior-leadership investment and resource decisions. Direct exposure to the fintech and consumer-payments sector.

PROFESSIONAL EXPERIENCE

NextEra Energy (NEER)

Dec 2025 - Present

Financial Analyst, Portfolio Finance & Capital Planning

Juno Beach, FL

- Manage budgeting, forecasting, and variance analysis across a \$71M portfolio of 60+ enterprise projects, delivering monthly steering-committee materials that inform executive capital-allocation decisions.
- Performed portfolio audits reconciling WBS charge codes and budget line items against live dashboards, identifying \$1.2M in misallocated charges and strengthening data integrity.
- Built manager-level budget and forecasting workbooks in Excel with automated actuals mapping from SAP BusinessObjects, reducing manual data entry by 40% and accelerating month-close reporting cycles.
- Designed dashboard templates with RAG status indicators and YTD pace variance, synthesizing portfolio data into real-time decision materials for senior leadership.

Populus Financial Group

Feb 2025 - Aug 2025

Financial Analyst (FP&A)

Irving, TX

- Built forecasting and projection models in Excel and Python with scenario and sensitivity analysis, supporting ~\$1.35M in monthly revenue across money-transfer, money-order, and bill-pay (consumer-fintech) product lines.
- Analyzed transaction cycles and revenue streams using variance and trend models to identify revenue-leakage patterns informing executive decisions.
- Evaluated data-center consolidation alternatives through cost-benefit and valuation analysis, identifying ~\$500K in annualized savings, and automated recurring reporting across SQL, Excel, and Power BI.

Ernst & Young

Aug 2024 - Jan 2025

Technology Consultant (Client: Hunt Oil Company)

Dallas, TX

- Developed interactive Power BI dashboards visualizing seven years of oil-and-gas differentials to support planning, forecasting, and sector analysis.
- Built a real-time data connection between SAP HANA and SQL Server using stored procedures and data virtualization, enhancing refresh speed and enabling timely reporting.
- Partnered with developers to migrate the AFENAV application to Salesforce APEX, improving data integrity and eliminating external vendor dependency.

InfoServe BI LLC

Jun 2023 - Aug 2024

Business Intelligence Reporting Analyst (Client: Holman Enterprises)

Dallas, TX

- Managed an SAP BusinessObjects environment supporting 790+ users and 70+ data universes, ensuring report availability and timely issue resolution.
- Automated BI reporting by connecting SAP BusinessObjects 4.2 with Oracle databases and scheduling tools, reducing manual effort and improving efficiency.
- Developed advanced SQL queries and ETL workflows to consolidate data sources and enhance consistency across reporting environments.

TECHNICAL SKILLS

- Financial Analysis & Modeling:** Budgeting, forecasting, valuation methods (DCF, comparables, LBO), scenario analysis, sensitivity/stress-testing, variance analysis
- Programming & Data:** Python, SQL (T-SQL, PL/SQL), Java, VBA
- Business Intelligence:** Power BI, Tableau, SAP Business Objects, Salesforce (APEX), InfoBurst
- Database & ERP Systems:** Oracle, SAP HANA, SAP S/4 HANA, SQL Server, ETL workflows, Data Warehousing
- Tools:** Advanced Excel, SAP Fieldglass, MS Office Suite, Project Coordination, Stakeholder Communication

KEY ACHIEVEMENTS

- Portfolio Governance:** Established standardized budget reporting and dashboard frameworks across a \$71M, 60+ project portfolio, improving transparency and executive decision support.
- Cost Optimization:** Developed analytical models that identified ~\$500K in annualized infrastructure cost savings through consolidation analysis.
- Revenue Enhancement:** Identified revenue patterns and operational gaps influencing \$1.35M+ monthly volume through variance and trend analysis.

EDUCATION

Thomas Edison State University

2024 - 2025

Bachelor of Arts, Liberal Studies

The University of Texas at Dallas

2020 - 2024

Bachelor of Science, Information Technology and Systems
