SUMMARY

Finance professional with experience across portfolio finance, capital planning, FP&A, and consulting, focused on financial modeling, forecasting, and quantitative analysis that drive executive capital-allocation decisions. Manages budgeting, variance analysis, and portfolio governance across a \$71M, 60+ project portfolio, and builds projection and valuation models in Excel (DCF, comparables) with regression-based forecasting, scenario analysis, and sensitivity testing. Prepares steering- and committee-level materials that synthesize data from multiple sources, with direct experience in the fintech and consumer-payments sector. Seeking to apply a rigorous, metrics-driven analytical foundation to investment due diligence and execution.

PROFESSIONAL EXPERIENCE

NextEra Energy (NEER) — Financial Analyst, Portfolio Finance & Capital Planning

Dec 2025 – Present

Juno Beach, FL

- Manage budgeting, forecasting, and variance analysis across a \$71M portfolio of 60+ enterprise projects, preparing monthly steering-committee materials that inform executive capital-allocation decisions.
- Conducted portfolio audits reconciling WBS charge codes and budget line items against live dashboards, identifying \$1.2M in misallocated charges and strengthening data integrity.
- Built manager-level budget and forecasting workbooks in Excel with automated actuals mapping from SAP, reducing manual data entry 40% and accelerating month-close reporting cycles.
- Designed dashboard frameworks with RAG status indicators and YTD pace-variance tracking, synthesizing portfolio data into real-time decision materials for senior leadership.

Populus Financial Group — Financial Analyst (FP&A)

Feb 2025 – Aug 2025

Irving, TX

- Built financial projection and forecasting models in Excel and Python supporting ~\$1.35M in monthly revenue across money-transfer, money-order, and bill-pay product lines, applying scenario and sensitivity analysis under multiple assumptions.
- Performed quantitative analysis of transaction cycles and revenue streams in the consumer-fintech/payments sector, using variance and trend models to surface revenue-leakage patterns for leadership.
- Conducted a cost-benefit and valuation analysis of data-center consolidation alternatives, identifying ~\$500K in annualized savings in a capital-allocation due-diligence review.

Ernst & Young — Technology Consultant (Client: Hunt Oil Company)

Aug 2024 – Jan 2025

Dallas, TX

- Conducted industry and performance research across seven years of oil-and-gas price differentials, building interactive Power BI models that supported planning, forecasting, and sector analysis.
- Synthesized data from multiple enterprise systems (SAP HANA, SQL Server) into a real-time reporting pipeline using stored procedures and data virtualization, accelerating refresh speed and enabling timely analysis.
- Partnered with engineering teams to migrate the AFENAV application to Salesforce APEX, improving data integrity and eliminating external vendor dependency.

InfoServe BI LLC — Business Intelligence Reporting Analyst (Client: Holman Enterprises)

Jun 2023 – Aug 2024

Dallas, TX

- Developed advanced SQL queries and ETL workflows to consolidate data from multiple sources, strengthening data consistency and reliability across reporting environments.
- Managed an SAP BusinessObjects environment serving 790+ users and 70+ data universes, and automated recurring reporting against Oracle databases to reduce manual effort.

TECHNICAL & ANALYTICAL SKILLS

- **Valuation & Financial Modeling:** DCF, comparable-company analysis, LBO concepts, financial projections, budgeting, forecasting, scenario analysis, variance analysis
- **Quantitative & Econometric Analysis:** Regression analysis, forecasting models, sensitivity and stress-testing, risk modeling, trend analysis
- **Programming & Data:** Python, SQL (T-SQL, PL/SQL), VBA, Java
- **Business Intelligence & Presentation:** Power BI, Tableau, SAP BusinessObjects, Salesforce (APEX), advanced Excel, PowerPoint/MS Office
- **Data & ERP Systems:** Oracle, SAP HANA, SAP S/4 HANA, SAP Fieldglass, SQL Server, ETL workflows, data warehousing

SELECTED ACHIEVEMENTS

- **Portfolio Governance:** Established standardized budget reporting and dashboard frameworks across a \$71M, 60+ project portfolio, improving transparency and executive decision support.
- **Capital Allocation:** Built valuation and cost-benefit models that identified ~\$500K in annualized infrastructure savings through consolidation analysis.
- **Sector Analysis:** Analyzed revenue patterns and operational gaps across \$1.35M+ in monthly fintech/payments volume using variance and trend modeling.

EDUCATION

Thomas Edison State University — Bachelor of Arts, Liberal Studies

2024 – 2025

The University of Texas at Dallas — Bachelor of Science, Information Technology and Systems

2020 – 2024
