New York, NY (Open to Relocation) — 682-556-0400 — azimkhan20002@gmail.com — linkedin.com/in/azimipathan — U.S. Citizen

SUMMARY

FP&A professional who builds the KPI dashboards, driver-based financial models, and planning processes senior leaders use to run the business. Currently own annual planning, budgeting, and monthly forecasting for a \$71M, 60+ project portfolio, partnering directly with executives through steering-committee reviews that set funding decisions. Pair finance depth with hands-on data skills — SQL, Python, Power BI/Tableau, and automated ERP integrations — to turn large, multi-source datasets into productivity metrics and decision-ready reporting at scale. Seeking to bring this blend of financial rigor and data fluency to strategic finance supporting a global go-to-market organization.

PROFESSIONAL EXPERIENCE

NextEra Energy (NEER)

Dec 2025 - Present

Financial Analyst, Portfolio Finance & Capital Planning

Juno Beach, FL

- Own annual planning, budgeting, and monthly forecasting/variance analysis for a \$71M, 60+ project portfolio, partnering with senior business and finance leaders through monthly steering-committee reviews that drive investment and funding decisions.
- Built and maintain portfolio KPI dashboards (RAG status, YTD pace-to-plan, spend productivity) that synthesize multi-source data into real-time decision views for senior leadership.
- Designed driver-based budget and forecasting models in Excel with automated SAP actuals integration, cutting manual data entry 40% and compressing the month-close reporting cycle.
- Dove deep into portfolio actuals to surface \$1.2M in misallocated charges, reconciling WBS charge codes against live actuals and tightening data integrity ahead of executive review.

Populus Financial Group

Feb 2025 - Aug 2025

Financial Analyst (FP&A)

Irving, TX

- Built forecasting and scenario/sensitivity models in Excel and Python across ~\$1.35M in monthly revenue spanning a consumer-fintech lender's money-transfer, money-order, and bill-pay lines.
- Analyzed transaction-volume and productivity trends across product pipelines, diagnosing revenue-leakage drivers and converting findings into pricing and operational actions for executive leadership.
- Developed an NPV / cost-benefit model evaluating data-center consolidation alternatives, quantifying ~\$500K in annualized savings to support the business-investment decision.

Ernst & Young

Aug 2024 - Jan 2025

Technology Consultant (Client: Hunt Oil Company)

Dallas, TX

- Modeled seven years of oil-and-gas price differentials in Power BI for a major energy client, supporting sector planning, forecasting, and performance analysis.
- Engineered a real-time SAP HANA-to-SQL Server data pipeline (stored procedures, data virtualization) that accelerated refresh speed and enabled timely self-service reporting for business teams.
- Led migration of the AFENAV application to Salesforce APEX, improving data integrity and eliminating external vendor dependency.

InfoServe BI LLC

Jun 2023 - Aug 2024

Business Intelligence Reporting Analyst (Client: Holman Enterprises)

Dallas, TX

- Administered an SAP BusinessObjects environment serving 790+ users and 70+ data universes, sustaining high availability for enterprise-wide KPI reporting.
- Automated recurring reporting (SAP BusinessObjects 4.2 to Oracle, scheduled refresh), eliminating manual effort and improving turnaround for business stakeholders.
- Wrote advanced SQL and ETL workflows that consolidated disparate sources into consistent, decision-ready metrics.

TECHNICAL SKILLS

- **Financial Planning & Analysis:** Annual planning and budgeting, forecasting, variance analysis, scenario/sensitivity modeling, NPV / cost-benefit analysis, productivity and pipeline metrics
- **Data & Programming:** SQL (T-SQL, PL/SQL), Python, VBA, ETL workflows, large multi-source datasets
- **BI & Dashboards:** Power BI, Tableau, SAP BusinessObjects, KPI dashboard design and automation
- **ERP & Systems:** SAP HANA, SAP S/4 HANA, Oracle, SQL Server, Salesforce (APEX), Data Warehousing
- **Tools:** Advanced Excel (driver-based models, automation), MS Office Suite, Stakeholder Communication

KEY ACHIEVEMENTS

- **Planning Ownership:** Built the annual planning, budgeting, and forecasting framework governing a \$71M, 60+ project portfolio, directly informing executive investment decisions.
- **Dive Deep:** Surfaced \$1.2M in misallocated charges through independent reconciliation of portfolio actuals, protecting budget integrity ahead of leadership review.
- **Decision Support:** Quantified ~\$500K in annualized savings via an NPV / cost-benefit model that drove an infrastructure investment decision.

EDUCATION

Thomas Edison State University

2024 - 2025

Bachelor of Arts, Liberal Studies

The University of Texas at Dallas

2020 - 2024

Bachelor of Science, Information Technology and Systems
